AEA ENGINEER COLORS PROGRAM

Oct 2021

GENERAL:

The Army Engineer Association (AEA) sponsors the Engineer Unit, USACE District and Division Colors Program to commemorate and honor the accomplishments of engineer units and organizations in defense of and nation building support to, the United States and its allies. The program includes sponsoring **unit colors, to be hung from the ceiling of the Engineer Regimental Room** in the Museum at Fort Leonard Wood, MO.

GOALS FOR THE PROGRAM:

Looking forward to the upcoming 250th Anniversary of the US Army Engineer Regiment, AEA seeks to enhance the Engineer Regimental Room in by increasing the numbers of units represented within the heart of the Engineer Regiment. AEA has developed a supplier capable of producing unit specific colors for all Engineer BNS and above Units. For a \$650 fee, AEA will contract the construction of a specific unit colors and arrange for the display of those colors in the Engineer Regimental Room at FLW, MO.

DESIGNING THE UNIT COLORS AND PREPARATION OF THE LAYOUT:

The US Army Institute of Heraldry has specific unit images for many but not all engineer units. The standard color layout consists of the Red Colored flag with the American Eagle. The Colors contains the Unit Coat of Arms, The unit DUI (or unit crest) along with unit motto and designation of the unit on the appropriate banner. This link is helpful in reviewing material on files for Engineer Units. <https://ttoh.army.mil/Catalog/HeraldryList.aspx?CategoryId=219&grp=2&menu=Uniformed%20Services>. **The unit design will be shown for concurrence before sending off for production.**

QUESTIONS?
